May 22, 2013   St. Lucie County, FL

**Renegade Internships**

Eight Aerospace Academy students from Ft. Pierce Central High School toured Renegade Light Sport LLC located at the St. Lucie County Airport on May 22, 2013. Each of these students will be paired with a mentor and participate in an internship at Renegade that will consist of broad exposure to and hands-on experience with aircraft design, construction, and test. With the help of community partners, students were informed early in the tour that they will be 'paid' by the opportunity to earn their Sport Pilot certificate with continuing opportunities to progress further.
